

PerfectPrimer / PerfectMembrane Comparison Chart

Benefit:	PerfectPrimer	PerfectMembrane
Bonds various coatings to even the most difficult surfaces	✓	✓
Reduces grinding and surface prep time by up to 90%	✓	✓
Primes and seals substrate for uniform coatings adhesion	✓	✓
Eliminates the need to dispose of soy gels or grinding debris	✓	✓
Balances concrete pH to reduce cracking and overlay delaminations	✓	✓
Environmentally friendly	✓	✓
Replaces the need to water prime, acid etch, and neutralize	✓	✓
Makes every substrate adhere like a new, clean concrete slab	✓	✓
Economical	✓	✓
Encapsulates Asbestos and PCB's		✓
Encapsulates lead		✓
Hides substrate imperfections that "telegraph" up to the finish coat		✓
Complete crack isolation membrane protects against future cracking		✓
Reinforces weak substrates		✓
Is a complete waterproofing underlay system		✓
Provides fast, easy crack repairs		✓
