

## Primer Selection Chart

<b>Purposes:</b>	<b>PerfectPrimer</b>	<b>SlabTight</b>	<b>IronBack</b>
Bonds most coatings to virtually any surfaces.	✓		
For uncoated concrete on or below grade.		✓	
Converts rust. Primes rusted and non rusted iron or steel.			✓
Protects against out gassing and moisture.		✓	✓
Ready for finish coat in one hour or less.		✓	✓
Primes, seals, and preps substrate.	✓	✓	✓
Economical.	✓	✓	✓
Lowers substrate pH to reduce coatings failures.	✓	✓	✓

*Note: These primers are compatible with each other. Apply SlabTight and IronBack only to a clean, bare substrate. PerfectPrimer works over sealed or unsealed surfaces.*
